## AERO EXPO INDIA - 2016

A Civil Aviation Convention & Exhibition for the Aviation, Aerospace and Air Cargo Industry being organized in New Delhi. It will be a progressive aviation event dedicated to providing an insight on the upcoming aviation market opportunities for the international and national aviation businesses, allied industries & companies.

Spread over a period of 2 days, the exposition is set to become an annual fixture in the capital's calendar of events and is anticipated to attract a constellation of high profile policy and decision makers; international and national experts and all stakeholders from the Aviation, Aerospace, Air Cargo & Allied Industries.

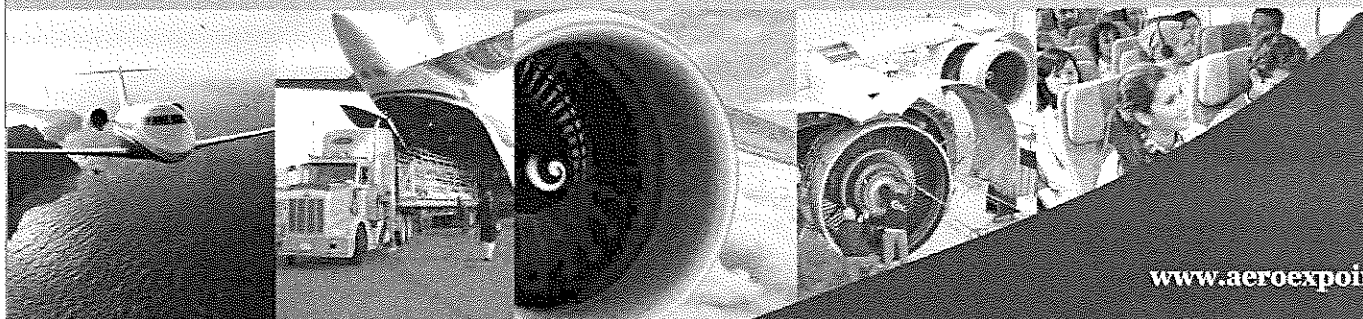

Held under the patronage of the Ministry of Civil Aviation, Government of India, the participants will include a panorama of concerned stakeholders across the Aviation, Aerospace, Air Cargo & Allied Industries (MRO & support services) with a focus on providing a special platform for the Aviation companies to present airport and aviation-related products and services while enabling discovery of the industry's latest developments and innovations in a remarkable and convenient location.

The Expo will seek to boost the status of India as a leading Global Hub of Aviation, Aerospace, Air Cargo & Logistics businesses, Tourism & specialised fairs and events in this field. The 1st Edition will be a unique show, with an aim to present a microcosm of the Indian Aviation Industry and give further impetus to the "Make In India" & "Skilling India" initiatives of the Government of India, simultaneously providing a platform to businesses from across the globe to explore opportunities in the Indian Aviation and Allied Sectors.

## INDUSTRY OUTLOOK

- India is among the five fastest-growing Aviation markets globally, poised to be the 3rd largest Aviation market by 2020.
- Cohesion with State Governments under the new Civil Aviation Policy & the Regional Connectivity Scheme.
- Indian carriers plan to increase their fleet size to reach 800 aircraft by 2020.
- Aim to enhance the number of operational airports to 250 by the year 2030.
- Plan to revive and operationalize around 50 airports in India over the next 10 years to improve Remote & Regional Air Connectivity.
- Single window clearance and reduction of dwell time to foster the Air Cargo growth story.
- Building capabilities to emerge as a preferred destination for manufacturing of Aerospace components among the other allied business.
- Public Private Partnership models, FDI initiatives and incentives for increased private and global collaboration.
- Development of the Indian market for the Helicopter Industry (for disaster relief, tourism, medical evacuation & pilgrimage services) a growing business opportunity.
- Push for Start-ups in Aviation via the Start Up India Initiative.
- Emphasis on advanced information technology in the growing Aviation industry.
- 3rd largest no of HNI's outside US & China, creating a larger scope for Business Aviation.
- Greater focus on infrastructure development & increasing liberalization via large scale collaborations.
- Thriving Indian Tourism Industry with major increase in global & domestic air passenger traffic.
- India's vision of becoming a Global Aviation Hub by 2020.
